CITRUS FRUITS

Trees, Plants and Vines,

FOR SALE BY THE

DEER ISLAND NURSERIES.

OAKLAND, ORANGE CO., FLORIDA.

A. E. CHAMPLIN, Manager.

Unsolicited Testimonials.

MAITLAND, FLA., *April 28, 1887.*

MR. A. E. CHAMPLIN, Deer Island Nurseries.

Dear Sir: I have to report that out of the box of plants sent by you to be put on Mr. T. L. Sprague's place, not one, so far, has died. I attribute it to your superior manner of packing, by which the plant arrives to its destination as fresh, often fresher, than if removed a very short distance with less care. My experience with you has been so pleasant that I always direct people to the "Deer Island Nurseries."

Respectfully,

J. C. EATON.

OXFORD GROVE, ORANGE CO., FLA., *April 28, 1887.*

MR. CHAMPLIN.

Dear Sir: I am pleased to say that the majority of the trees have done unusually well. Several of them besides putting on new growth, are also blooming.

Very truly,

THOS. W. HEWLETT.

LEESBURG, FLA., *October 10, 1886.*

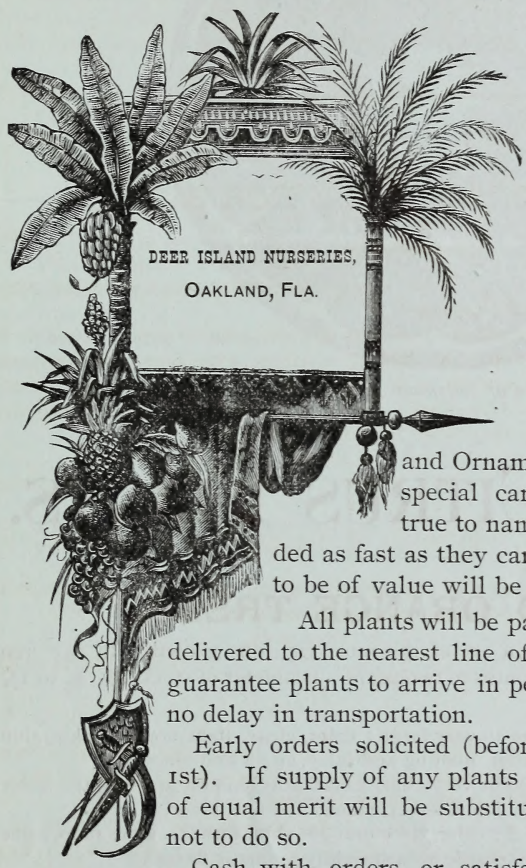
A. E. CHAMPLIN, Oakland, Fla.

Dear Sir: On December 15th, 1886, you shipped us to Long Lake, a bill of trees and plants, which have done nicely. The Japan plums have more than trebled in size; in fact we had to cut them back—the top was getting too heavy.

Respectfully,

HOLT & WITHERS.

Introductory.



THE Deer Island Nurseries are located at Oakland, Orange County, Florida, south of Lake Apopka, on an island in Lake John, and being in the center of the state, trees and plants suitable for all parts of the state can be grown.

It is the intention of the proprietors to keep a full stock of Oranges and other Citrus Fruit Trees, also Tropical and Semi-Tropical Fruits and Ornamental Trees and Plants, and special care will be taken to grow all true to name. New varieties will be added as fast as they can be obtained, and all found to be of value will be placed in our catalogues.

All plants will be packed in the best manner, and delivered to the nearest line of transportation, and we will guarantee plants to arrive in perfect order, provided there is no delay in transportation.

Early orders solicited (before rather than after January 1st). If supply of any plants ordered is exhausted, others of equal merit will be substituted, unless we are requested not to do so.

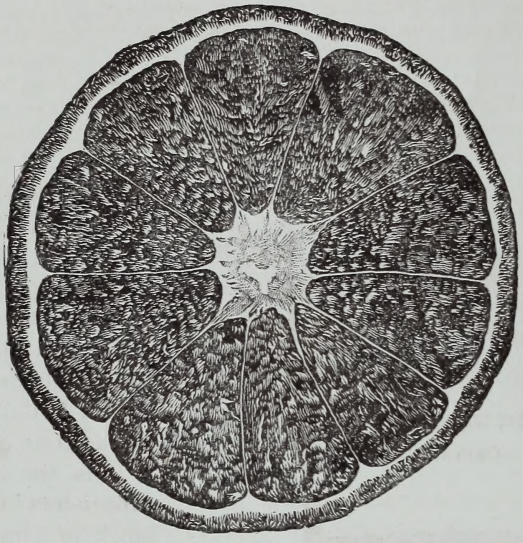
Cash with orders, or satisfactory reference, is our rule. Money should be sent by Registered Letter or Money Orders drawn on Oakland, payable to A. E. Champlin. We prefer a remittance of 10 per cent. on all orders booked for delivery at the proper season.

Orders from this catalogue to the amount of $10 and upwards, at single and dozen rates, delivered free of freight to all points on the O. B.; J., T. & K. W.; T. O. & A., S. Fla. and Fla. So. railroads.

Letters of inquiry will be cheerfully answered. Catalogues mailed free on application.

All communications should be addressed to

A. E. CHAMPLIN, Manager,
Oakland, Orange Co., Florida.



Cross Section of Satsuma or Unshiu Orange.

SELECT CITRUS FRUITS.

BUDDED ORANGE TREES.

The trees we offer this season are of the most vigorous growth. In age from 3 to 5 years; bud growth, six months to two years. Diameter of stocks, ½, ¾ to 1¼, 1½ inch. Height, 3 to 6 feet.

Magnum Bonum. Size, large to very large; color, clear, light orange; skin, thin, smooth and glossy; pulp, fine, tender, melting and juicy, sweet and vinous.

Homosassa. Medium size; skin very thin, remarkably smooth and satiny; color, bright; pulp, very fine, remarkably juicy, sweet, vinous and fine flavor.

Old Vini. Size, above medium; color, dark orange; skin, rather rough; pulp, somewhat coarse, juicy, sweet, and remarkable for a sprightly aromatic flavor.

Mediterranean Sweet. Large, bright; thin skin; juicy, sweet and delicious. An early and prolific bearer; thornless.

Riverside or **Washington Navel.** Size, large; color, dark orange; pulp, very tender and melting, slightly sub-acid and highly flavored. A much more prolific and even bearer than any of the other Navels.

Majorca. From the island of Majorca. A thornless, vigorous grower, bearing a dozen to twenty oranges the second year from the bud; pulp, tender, sweet and juicy.

Jaffa. Introduced by General Sanford, from the Eastern Mediterranean. Fruit held by some to be unsurpassed, and said to command the highest price in the Paris market. Tree a strong grower, and nearly thornless. In appearance, one of the noblest of the citrus family.

Tardiff. (Synonym, *Hart's Late.*) Medium sized, round, skin smooth and thin; grain fine, with a brisk and racy flavor. A common Florida orange, in quality above the average. Retains its juices until the middle of July, or even later, and is especialy valuable on this account. Tree prolific, a strong grower; native seedling.

King of Siam. Fine, thrifty trees, 75 cents and $1 each.

Tangierine. (Synonyms—*Bijou, Dancy's Tangierine, Moragne's Tangierine.*) Fruit rather small; color, deep crimson; pulp easily separated into sections, very tender, rich and melting; spicy and aromatic. In the quality of the fruit, it resembles the *Mandarin*, but in foliage and habit of growth, it is more like the ordinary orange; thorny. An excellent market variety, sometimes selling for double the price of other kinds.

Mandarin. (Synonyms—*China Mandarin, Willow-Leaved.*) Fruit small, flattened; color, deep yellow; skin, thin; flesh dark orange color; juice sweet and highly aromatic; pulp easily separated from the rind, and parted into sections, hence called "Kid-Glove." Tree dwarfish, slightly thorny, willow-like foliage; prolific and vigorous. A good variety to put between the standard sorts while the grove is young.

Celestial Tangierine. An improvement on the *Mandarin.* 50 to 75 cents each.

LEMONS.

More lemons should be grown in Florida. They are often more profitable than the orange, and the demand for good fruit is steady.

Villa Franca. This is admitted to be the best lemon for Florida; the most hardy, prolific and vigorous grower; nearly thornless; skin thin, and of fine flavor; ripens July and August.

Ever-bearing Lemon. No door-yard is complete without one or more of the above. Equally as good for lemonade, medicine or cooking purposes as any of the other varieties; always in fruit and flower.

Prices same as other Citrus fruits.

LIMES.

Limes succeed on soil that is too poor for oranges, and can be readily disposed of at good prices. We grow two good sorts:

Persian and **Florida Improved.** Prices same as other Citrus fruits.

SHADDOCKS AND GRAPE FRUITS.

These Citrus fruits are worthy of more attention than they have had in many parts of our state. They will be found quite profitable if well grown.

Shaddocks—**Mammoth**, Purple and Pink.

Grape Fruits—**West India, Mammoth, Cluster** and **Florida.**

Prices same as other Citrus fruits.

NOVELTIES IN CITRUS FRUITS.

These are all interesting and valuable—especially the *Satsuma*, which is an improved Mandarin, and likely to become a standard variety.

Variegated Orange.

Variegated Lemon.

Kumquat or **Chinese Orange.**

Satsuma or **Unshiu Orange.** Very dwarf, but good grower and heavy bearer. 50 to 75 cents each.

All above, in tubs or ten-inch pots, $2.50 to $3 each; for trees from open ground, see prices of other Citrus fruits.

PRICES OF CITRUS FRUITS.

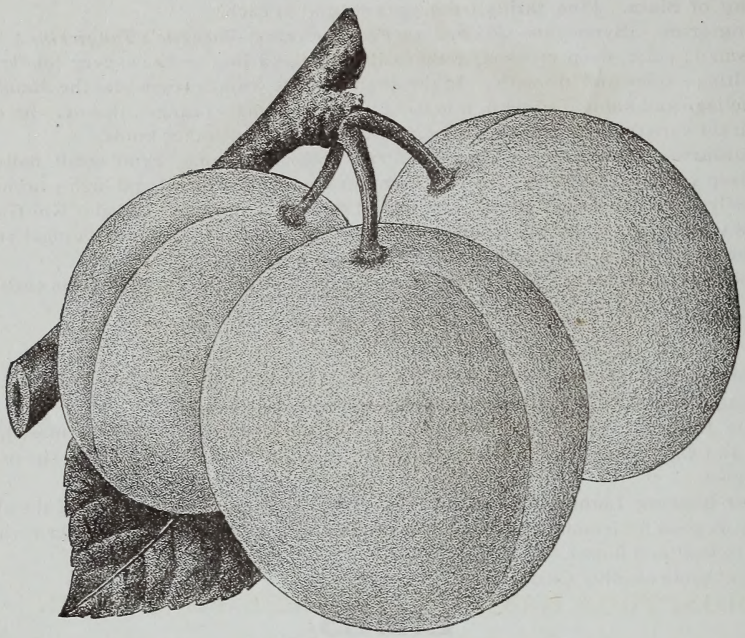
☞ A liberal discount on lots of 100 and over.



Russian Apricots.

FRUITS FOR FLORIDA.

Everything here offered is suited for Florida culture, and the assortment of varieties is the result of practical trials to ascertain which do best with us, except in the case of the Japan Plums, which have not yet fruited here.

GRAPES.

Hartford Prolific, Ives' Seedling, Lindley and **Salem.** All excellent varieties, of rapid growth. 20 cents each, $2 per 12.

Niagara and **Empire State.** Two fine white grapes. 50 cents each, $5.50 per 12.

Muscadines, Scuppernong and **Thomas.** 20 cents each, $2 per 12.

APRICOTS.

Russian, Early Golden, Jamucett, Breda. 30 cents each; $3 per 12.

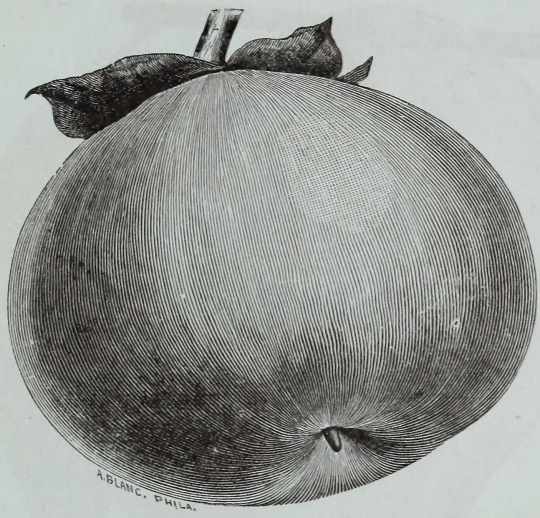
PEACH TREES.

Peen-To, or **Flat Peach of China.** Thrifty trees; ripen here from April 15th to May 10.

Honey Peach. Ripen about June 1st.

The two varieties of peaches above mentioned belong to the Chinese type, and produce well in all sections of Florida, where other varieties have failed.

	Each	Per doz.	Per 100
Prices, 2 to 3 feet,	$0 20	$2 00	$12 50
3 to 4 "	25	2 50	15 00
4 to 5 "	30	3 50	20 00



Japanese Persimmon.

DIOSPYROS KAKI, OR JAPANESE PERSIMMON.

We offer none but Home Grown Trees.)

This is destined to be one of the leading fruits of Florida. It is easily budded or grafted on the native stocks, coming into bearing the third or fourth year therefrom, the fruit being very agreeable to the taste and pleasing to the eye. We offer six well-tried varieties:

Among, Hyakume, Hacheya, Zingi, Kurokumo, Taneashii (or Seedless).

	Each	Per doz.	Per 100
Price, 2½ to 4 feet,	$0 30	$3 50	$35 00
4 to 5 "	50	5 00	45 00
5 to 6 "	60	7 00	55 00

FIGS.

Adriatic, San Pedro, Manaco Blanche and Endric. The above list comprises the best figs yet introduced for drying. $1 and $1.50 each.

We have a large stock of strong-rooted plants of the following varieties:

Brunswick, Brown Turkey, Black and **Green Ischia, Large Blue, Large Purple, White, Lemon, Celestial** (or Sugar Fig). 1 to 2 feet, 25 cents each, $2.50 per 12; 2½ to 3½ feet, 30 cents each, $3 per 12.

POMEGRANATE.

(Punica Granatum.)

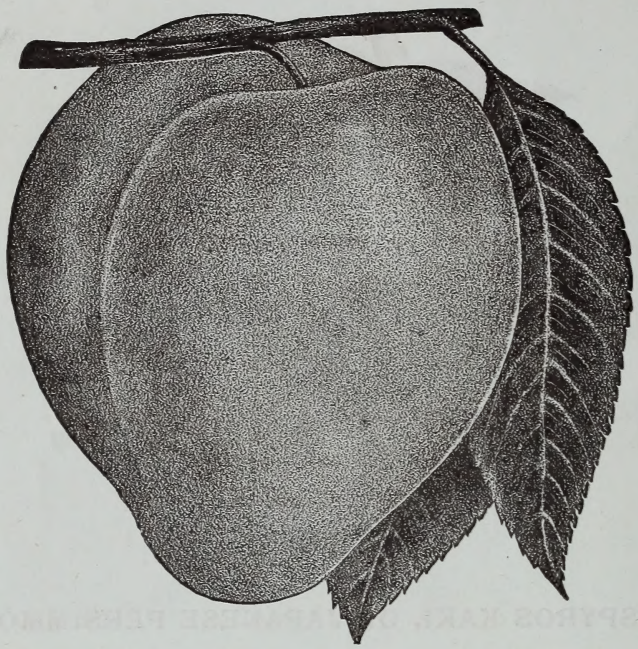
Sweet and **Sub-acid.** Old and well-tried varieties. 20 cents each, $2.50 per 12.

NEW POMEGRANATES.

Paper Shell. A very dwarf variety, of thin skin and excellent quality..

Spanish Ruby. Fruit very large, with crimson cheek and pulp; very sweet and aromatic.

Hermosillo. A variety from Mexico; said to be very fine. 25 cents each, $2.50 per 12.



Kelsey's Japan Plum.

KELSEY'S JAPAN PLUM.

In offering this Plum, we feel justified in recommending its trial. Coming from Japan, a climate similar to ours (and growing and fruiting in Georgia), we see no reason why it should not prove successful here, as many other Japan fruits have. It is of the largest size, and can be easily peeled like a peach. The most productive, coming into bearing at the age of two or three years, and very attractive in appearance. Late results in parts of Florida have shown that all claimed for this fruit is realized. All home grown trees.

	Each	Per doz.	Per 100
Price, 2 to 3 feet,	$0 20	$2 00	$15 00
3 to 4 "	25	2 50	20 00
4 to 5 "	30	3 50	50 00

JAPAN PLUMS.

(Not Fruited Here Yet.)

Though the first two named Japan fruits have not fruited here, we believe they will more than meet our most sanguine expectations. Like our Japan Persimmons, they can be budded and grafted on our native plums, and will undoubtedly become one of the most profitable fruits of Florida.

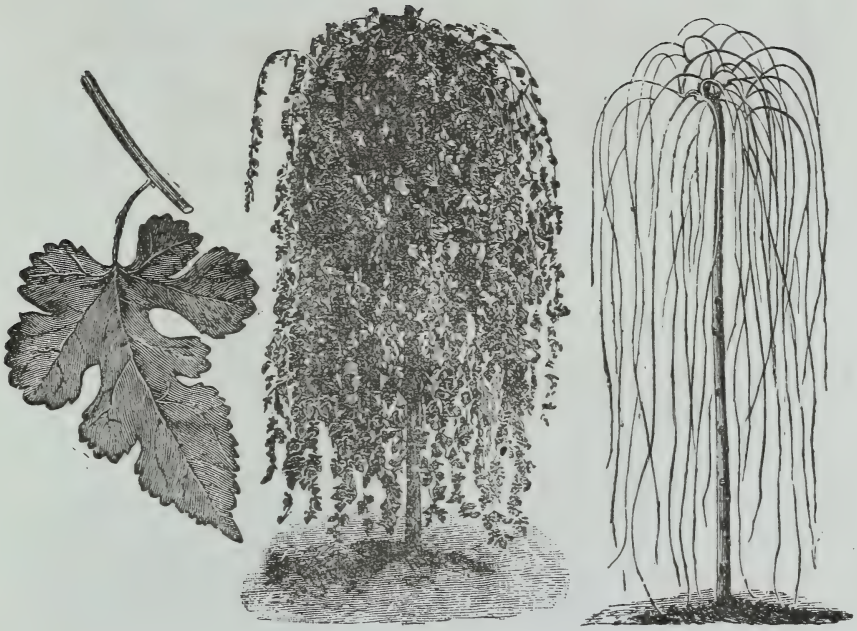
Ogan. Very vigorous grower; fruit bright yellow and very sweet.

Botan. Fruit reddish blue. Said to be one of the best shipping plums.

Prunus Simoni (Apricot Plum). Fruit of a dark brick-red color, much thicker than long; a very fine plum.

Prunus Virgata (Japenese Prune). Tree a very rank grower. Fruit when fully ripe, very large and fine. We have them grafted on native stocks, and they are doing remarkably well.

Price of above four fruits, 50 cents each, $5 per 12.



Deer Island Nurseries

OAKLAND, ORANGE CO., FLORIDA.

With pleasure we introduce to our many patrons in Florida,

Tea's Weeping Russian Mulberry

For a door-yard or single lawn tree it has no equal. It is very rapid in growth, forming a beautiful head in from three to six months. Its dark green, delicately cut foliage forms an attraction that cannot be passed by unnoticed. The tree remains dormant only-one third as long as other varieties, which strongly recommends it to all lovers of the beautiful.

A. E. CHAMPLIN, Manager.

Novelties of Merit.

TEA'S WEEPING RUSSIAN MULBERRY.

	Each.
3 to 4 feet, June buds	$2 50
4 to 6 feet, standards	5 00

SATSUMA BLOOD PLUM.

Tree a rank grower, with dark blood red bark. Fruit solid; color deep purple from pit to skin. One of Florida's most promising fruits. Price, $1 each.

DWARF JAPAN BLOOD PEACH.

Color of fruit, blood red; freestone. The earliest peach known. Price, $1 each.

PERSIMMON, EARLY GOLDEN.

Earliest of all. Fruit colors in July; ready for eating middle to last of August. Price, $1 each.

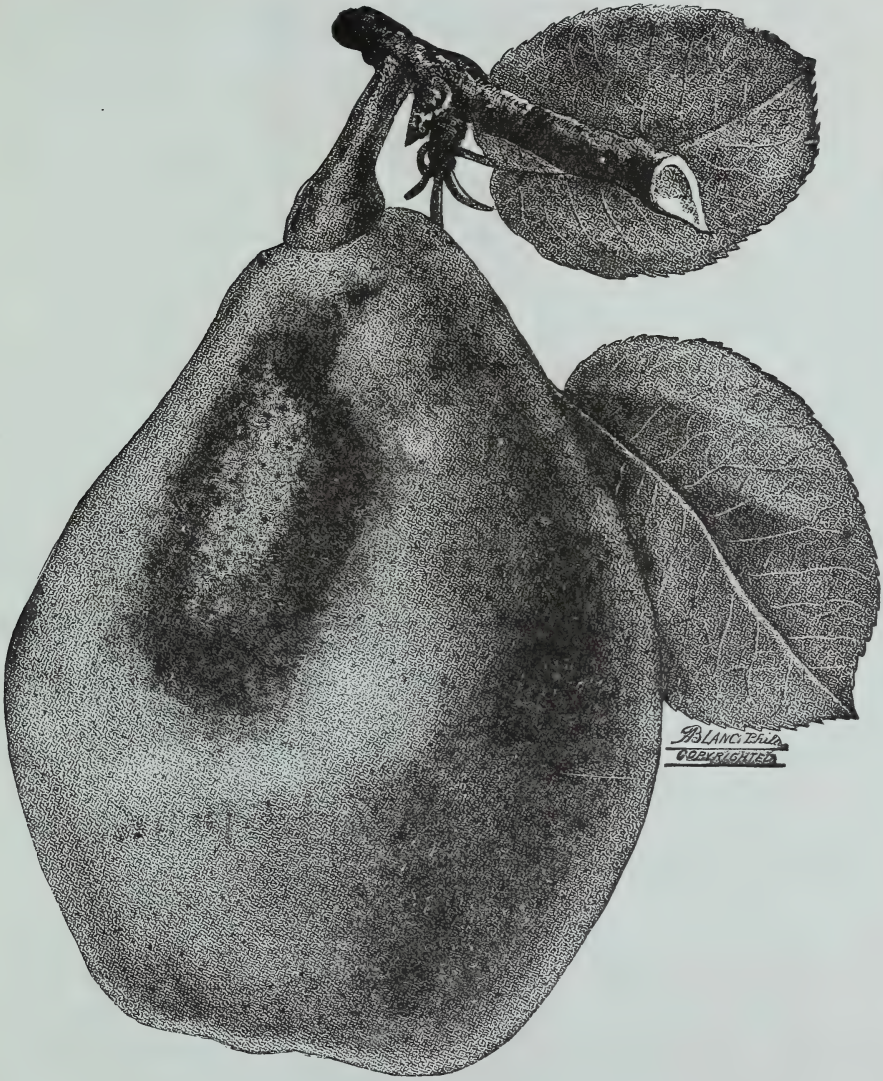
BIDWELL EARLY PEACH.

Well known.

	Each.	Dozen.	Per 100.
4 to 5 feet	$0 25	$2 75	$20 00
2 to 3 feet, strong	20	2 00	15 00

Address all orders and communications to

A. E. CHAMPLIN, Manager,
Deer Island Nurseries,
OAKLAND, ORANGE CO., FLORIDA.



Le Conte Pear.

MARIANNA PLUM.

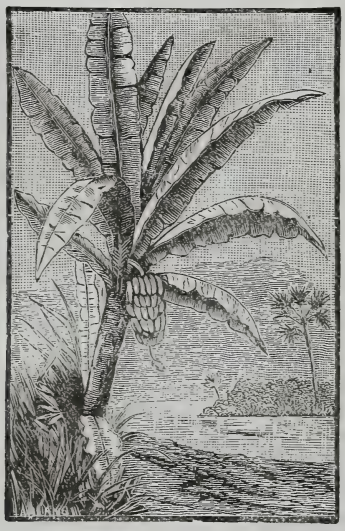
Color of fruit when ripe, a deep cardinal red; of very fine quality, and bears immense crops of fruit. It is one of the best shade trees, retaining its leaves until nearly spring. 25 and 50 cents each.

LE CONTE PEARS.

Certainly essential to any well regulated southern fruit farm. 4 to 5 feet, 25 cts. each, $2.50 per 12, $15 per 100.

TEAS' WEEPING RUSSIAN MULBERRY.

3 to 4 feet, June budding, $2.50 each; 4 to 6 feet, standards, $5 each. For description see circular.



Cavendishii Banana.

MULBERRIES.

Hicks. This is the most abundant bearer; of a sweet and insipid flavor.
Downing. Not so prolific as the above, but of a richer quality.
25 ceuts each, $2.50 per 12.

JUJUBE.

This is said to be the tree from which our Saviour's crown of thorns was made. The fruit is something the shape of the date; in taste like an apple. It bears abundantly the third year, and makes a very interesting tree. 50 cents each, $5 per 12.

NUT-BEARING TREES.

Pecan Nut, Texas Paper Shell. 25 cents each, $2.50 per 12.
Spanish Chestnut. They make very beautiful trees. 25 cents each, $2.50 per 12.

BANANAS.

Of all the delicious fruits of Florida, the Banana ranks first.

Hart's Choice. Is of the very best quality; thin skin, and bright yellow when fully ripe. An ordinary plant will bear a good bunch of fruit in twelve months from time of setting, and on almost any kind of sandy soil. The fruit is not as large on high as on low land, but, we think, of superior flavor. Everyone should plant the Hart's Choice, if only a few plants for home use.

Cavendishii. A dwarf variety, which succeeds best on moist soil.

Rand. This is the lowest growing dwarf variety yet introduced, and the fruit bunches are three times larger than any other variety; of very fine quality. $2 each, $22 per 12.

Prices of Bananas, except where noted, 1st size, 75 cents each, $7.50 per 12; 2d size, 50 cents each, $5 per 12; 3d size, 35 cents each, $3 per 12.

CATTLEY GUAVA.

(Pot-Grown Plants.)

This fruit should be more largely planted, as it bears almost continuously and, as a rule, a full crop during the winter months.

Chinensis. 25 cents each, $2.50 per 12.
Brazilian. 75 cents each, $7.50 per 12.
Chinensis. From open ground. 1st size, 15 cents each, $1 per 12.

TROPICAL AND SEMI-TROPICAL FRUIT PLANTS.

(Pot-Grown.)

Mammee Sapota. 25 to 50 cents each.

Mangoes, No. 11 and Spice. 25 cents each, $2.50 per dozen.

Tea. (*Thea Bohea.*) 25 to 50 cents each.

Coffee. (*Coffea Arabica.*) Fine plants at 75 cents to $1 each.

Sapodillo. This is one of the most delicious of tropical fruits, and is about the size of an ordinary peach. Skin thin and brown color; four to six seeds; tree about the size of an apple. 25 cents each, $2.50 per dozen.

Sugar Apple. (*Anona squamosa.*) More branching than the above, but no gloss on the leaves. Fruit, when ripe, green, very soft and full of seeds; surface of skin rough. A delicious fruit. 25 cents each, $2.50 per 12.

Sour Sop. (*Anona murieata.*) A large green fruit, containing a delicious white pulp. 50 cents each, $4.50 per 12.

Japan Plum. (*Eryobothrya Japonica.*) Fruit in clusters; very fine. One year old, 25 cents each, $2.50 per dozen. Two years old, 35 cents each, $3 per dozen.

Alligator (*Avocado*) Pear Tree. The foliage is of a deep green; somewhat resembles the laurel. Fruit the size of the largest pear. Flavor delicate, rich; after having acquired the "taste," it is a most agreeable fruit; eaten with wine, lime juice or pepper and salt. 50 cents, 75 cents and $1 each.

Surinam Cherry. (*Eugenia Mitchelli.*) Very pretty edible fruit, differing widely from the northern cherry. 25 cents each, $2.50 per 12.

Melon Paw-Paw. (*Carica papaya.*) Fruit resembles a musk melon in size, color and taste. 25 cents each, $2.50 per 12.

Cattley Guava.

ORNAMENTAL TREES, ETC.

NEW DECIDUOUS ORNAMENTAL PLANTS.

Clerodendron Viscosissima. Col. E. H. Hart says of this beautiful tree: "It blooms all summer, begins to flower when three or four years old, and, when in bloom, is one of the handsomest low-growing trees I know of. Bears both *sun* and *frost*."

Aralia Papyrifera. This is the plant from which the delicate pith paper of the Chinese is made. It resembles the Castor Bean in foliage and habit, and needs a moist, rich, shady corner; blooms in December and January. Bears frost but does not like too sunny exposure.

Dimorphantus Mandschurdicus. From North China. A hardy, tall-growing shrub resembling the Prickly Ash, with magnificent leaves a yard long. This blooms in summer, throwing out a large head of small white flowers above the foliage. Stands sun and frost, and grows like a native.

Col. Hart says of the above three ornamental trees combined: "These are all highly ornamental and seldom seen in Florida; are well suited to the climate and admirable for lawn decoration." 1st size, 75 cents each, $6.50 per 12; 2d size, 50 cents each, $5 per 12.

DECIDUOUS ORNAMENTAL TREES.

Catalpa, Dwarf Japan.

" **Speciosa.** 25 cents each, $2.50 per 12.

" **Aurea.** 25 cents each, $2.50 per 12.

" **Kæmpferi.** Very beautiful, fast-growing trees with pretty, showy flowers. 1st size, 50 cents each, $5 per 12, 2d size, 25 cents each, $2.50 per 12.

American Olive. A grand old shade tree, well adapted to Florida.

Paulownia Imperialis. (Empress Tree.) A very fast-growing tree, with large leaves and sweet-scented lilac blue flowers, produced in spring before the leaves; very fragrant. 1st size, 50 cents each, $5 per 12, 2d size, 35 cents each, $3.50 per 12.

Silver Maples. Fine rapid growing trees. 25 cents each, $2.50 per 12.

Ailanthus. (Tree of Heaven.) This tree will grow and flourish on soils where other trees would perish, and makes a fine shade tree. Well adapted for planting around sandy margined lakes and in sea-side gardens.

Weeping Dogwood. Handsome drooping foliage. 25 and 50 cents each.

Vitex Agnus Castus. (Chaste Tree.) Very pretty ornamental tree. $1 each.

Hibiscus, Child's Hardy Hybrids. 25 cents each, $2.50 per 12.

Texas Umbrella Tree. (*Melia Azedarach Umb.*) It is an improvement on the old variety, resembling a great umbrella. 15, 25, 50 cents each, $1.50 per 12.

ORNAMENTAL GRASSES.

Pampas Grass. Rose, with rose-colored plumes.

" " Silver, with silver plumes.

Eulalia Japonica. Leaves striped with creamy white; very fine.

" " **Zebrina.** Blotched with gold across the leaves, instead of lengthwise like the *Japonica*.

Erianthus Ravennæ. Beautiful, grayish-white plumes; blooms very profusely. 1st size, 50 cents each; 2d size, 35 cents each.

Caladium Esculentum.

Yucca.

CALADIUM ESCULENTUM.

Large-leaved, ornamental, bulbous-rooted plants, suitable for center of flower beds; of very rich appearance and rapid growth. 25 cents each, $2.50 per 12.

EVERGREEN ORNAMENTAL PLANTS.

(Pot-Grown.)

Grevillea Robusta. (Silk Oak.) This beautiful evergreen grows well in Central and Southern Florida. It blooms when eighteen or twenty feet high; flowers orange colored. Suitable for shade along garden and road walks. One year old, 25 cents each, $2.50 per dozen; two years old, 40 cents each, $4 per dozen.

Japan Privet. (*Ligustrum.*) A very handsome hedge shrub; grows very rapidly. A single specimen, as an ornament, gives a fine effect. Leaves dark waxy green; under side, pea green color. 25 cents each, $2.50 per dozen.

Eucalyptus Globulus. Australian Blue Gum; 2 to 3 feet; pot-grown. 25 cents each, $2.50 per dozen, $18 per hundred.

Date Palms. (*Cocos Nucifera.*) One year old, 15 cents each, $1.50 per 12; two years old, 25 cents each; $2.50 per 12.

Aucuba Japonica. Beautiful plain green and golden blotched leaves. Does best in partial shade. 50 cents, 75 cents and $1 each.

Spanish Bayonets. (Yucca.) 1st size, 50 cents each, $5 per 12; 2d size, 25 cents each; $2.50 per 12.

VINES.

Antigonon Leptopus. A beautiful climber, with racemes of rose-colored flowers, two feet long. 25 cents each, $2.50 per dozen.

English Ivy. Ornamental climber. 25 cents each, $2.50 per dozen.

Akebia Quinata. A fine climber, with reddish brown flowers. 50 cts. each, $5 per 12.

Rhyncospermum Jasminoides. Japan and Variegata. Beautiful evergreen climbers, with very fragrant white flowers in spring. 50 cents each.

Japan Ivies. (*A. Veitchii, A. Quinquefolia, A. Virginica.*) Beautiful climbers; will well repay the little attention they require. 25 cents each, $2.50 per 12.

Bignonia Radicans. (*Bignonia Stans.*) Trumpet Creeper. Useful in covering over old fences, stumps, etc., making rapid growth. 25 cents each, $2.50 per 12.

Wistaria Sinensis Alba. White.

" **Frutescens.** Blue flowers.

" **Magnifica.** Pale blue. 50 cents each, $5 per 12.

Honeysuckle. 25 cents each, $2.50 per 12.

Moon Flower. (*Ipomæa noctiphyton.*) Fine climbers; white flowers, 25 cts. each.

" **Child's.** An improved form. 25 cents each, $2.50 per 12.

Marechal Niel Rose.

ROSES.

We call especial attention to our list of Chinese Roses. They are continual bloomers, always covered with buds, and in our sandy soil they make a better growth and give better general satisfaction than any others, growing and blooming as freely in June, July and August as any other period. 75 cents each, $7.50 per 12.

CHINESE ROSES.

Arch Duke Charles. Pink to crimson.
Camelliæflora. Rosy purple.
Ducher. White; free.
Theresa Strovins. White, pale flesh center.
Marechal Neil. On own roots. 75 cents each, $7.50 per 12.
" " Budded. $1 each, $10 per 12.

TEA ROSES.

A selection of the best varieties.

Duchess de Brabant. Salmon pink.
Etoile de Lyon. Canary yellow.
James Sprunt. Dark crimson.
Bon Silene. Carmine.
Isabella Sprunt. Buff.
Safrano. Buff.
Marie Guillot. Pure white.
Zelia Pradel. White, yellow center.
Marie Sisley. Yellowish-white.
Devoniensis. White, canary center.
Mme. Damaizin. Salmon.

25 cents each, $3 per dozen. Fine plants, and are sure to give satisfaction.
